AKUA BEACH RECEIVES APPROVAL TO REOPEN

Akua Beach, the only wave of its kind in New England, has received approval to open as of June 10th. Flowboarding and body boarding on this world class attraction are great ways to kick off your summer fun. Rarely do you get the chance to experience an activity that brings people together like a surfing simulator. It is perfect for team building, birthday parties, a reward for your team's hard work, or a great way to improve your skills. Since now is the time to get out and cool off, reserve your exclusive time block for your group of 10 or fewer riders.

Spaces will fill quickly, so contact us today to lock in your time!

Reserve wave time for up to 10 Riders of all abilities on Akua Beach for only \$199 an hour at www.WhalesTaleWaterpark.net. That's under \$20 per person! As a skill based ride, you'll be able to push your limits and progress the more time you spend on it. Akua's private sessions allow you to get as much ride time as you want during your reserved slot. You can even upgrade your private session with a cash bar and grill.

All private sessions are staffed with lifeguards to keep you safe and offer coaching to get you started and refine your riding skills. We'll provide everything else from equipment to quality instructors. You just need a swimming suit, towel, and the spirit of adventure! Food and Beverage, as well as bar options, are available and can be arranged in advance to turn your session into an unbelievable private event or party.

To show our appreciation for our Season Pass holder's continued support, we have an hour long slot for you daily. This session is free of charge for our 2020 pass holders. In addition, 2020 season passes will be extended a year from our opening day. We pride ourselves on being New England's Favorite Waterpark, delivering legendary experiences and world-class customer service. Tickets pre-purchased for 2020 will be valid in the 2020 or 2021 season or can be redeemed for entrance to the season pass session on Akua Beach. We also understand these may be challenging financial times, so if you require a refund we will gladly process it for you. Just call us at 603 745 8810.

We recognize the hard work by so many to identify the strict sanitation standards necessary to meet reopening requirements mandated by the State of New Hampshire Economic Reopening Task Force and the Department of Health. While the rest of the Whale's Tale Waterpark awaits State approval to reopen, we are hopeful that State recommendations will soon be released, allowing the entire park to open. As of now, enjoy Akua Beach. Surfs Up!
